UTILITY INFORMATION

Gas:

- These units do not use gas, but have a 1-1/4" front gas manifold that couples to the adjacent sectional unit(s), and a 1" rear gas connection with a male NPT connector.

MISCELLANEOUS

- If casters are used with flex hose, a restraining device should be used to eliminate undue strain on the flex hose.
- Minimum clearance from noncombustible construction is zero. Minimum clearance from combustible construction is 0" on sides and 0" on rear.
- Check local codes for fire and sanitary regulations.

NOTICE:

Southbend has a policy of continuous product research and improvement. We reserve the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions or replacements for previously purchased equipment.
