American Range proudly presents the ARTY Teppan-Yaki Griddle. This design engineered commercial cooking product is perfect for the Japanese-style cuisine that traditionally uses an iron griddle to cook steak, shrimp, okonomiyaki, yakisoba, and monjayaki.

The simple styling and solid polished-steel cooking surface of the Teppan-Yaki Griddle is readily used to cook food in front of guests at restaurants and is most suitable for smaller ingredients, such as rice, egg and finely chopped vegetables.

Quality, dependability and customer satisfaction make American Range the ultimate choice.
